OVER THE YEARS

Commentaries based on cataloging over 300 sales and 51 years in numismatics - since 1928
(including THE LARGEST A.N.A. SALE EVER HELD-1977)

The recent fluctuations in gold and silver bullion confirmed the steady upward pressures forcing the rapid rise in value of numismatic coins and currency, regardless of whether the bullion related coins rose or fell. With a limited supply and ever increasing demand, it appears that it is not a question whether they will increase in value but only at what rate. The demand seems insatiable with IRA, KEOGH and PENSION plans siphoning off much of the better grade material, preventing their reappearance on the market for some years. Nearly every time we pass up a coin or note as "too high", we soon find ourselves paying more, if we are fortunate enough to have the opportunity to acquire a similar one.

The FOUNDATION FOR NUMISMATIC EDUCATION, INC. had its annual meeting at the ANA convention with chairman A.M. Kagin and president Abe Kosoff at the head table. The doubts of some that the aims could be achieved were happily replaced with confidence in our future. A brochure made up by Sanford Durst and David Ganz was distributed at the convention to those we thought might be interested in being a part of advancing numismatics to the arts and science (as well as hobby) to which we feel it is entitled. Since so many people seem interested, we agreed to reproduce the brochure in this catalog, thereby enabling a greater number to be involved or at least keep informed.

Douglas Ball reported that the first project of the Foundation need not result in profits. The crucial factor was to produce a credible work, beyond criticism. He proposed a manuscript, *The American Revolution: A Descriptive History of Fiscal Paper* by William G. Anderson, a New York historian. President Abe Kosoff favored the proposed project and chairman Art Kagin expressed hope that the University of Georgia may co-sponsor the work.

Various projects were suggested by John Pittman, Sanford Durst, Don Kagin, Jack Veffer, Admiral Dodson, Richard Yeoman, Adna Wilde, Yasha Beresiner and secretary Maurice Rosen. Treasurer Eldrige Jones was pleased to receive word of the \$5,000 contribution by the Kagins (Art and Don) to start the fund raising. The 20 attendants left the meeting with the impression that the Foundation was "on its way" to realizing its goals.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the **TERMS OF THE SALE**.

YOU ARE THERE

If you are unable to attend a Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" **YOU ARE THERE SERVICE**. A.M. (Art) or Don Kagin will personally serve as your representative at the auction. This unique service allows you to avoid the situation of not receiving the material you desire because you were unable to attend in person. This personal service is provided free of charge at all Kagin's auctions. There is a nominal 5% commission charged for this service at all other auctions. Art or Don Kagin are always available for personal consultation in numismatic matters. Please call **TOLL FREE TODAY 800-247-5335**.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1	Barely recognizable as to type.
FAIR-2	Showing minor detail.
ABOUT GOOD-3 (AG-3)	Rims worn down into lettering but interior detail visible.
GOOD-4,6	All interior outlines visible.
VERY GOOD-8,10 (VG-8,10)	About 25% of the interior detail will be visible, date barely readable.
FINE-12,15	30% to 50% of the interior detail will show.
VERY FINE-20 through 35 (VF-20,25,30,35)	60% to 85% of the interior detail will show. 35 (Borderline EF).
EXTREMELY FINE-40,45 (EF-40,45)	90% of all interior details will show.
ALMOST UNCIRCULATED 50, 55 (AU-50, 55)	Bare traces of friction at the highest points. 55+(Borderline Unc).
UNC-60 (MS-60)	Strictly Uncirculated with no rub or friction, i.e. NO WEAR.
CHOICE BU-63 (MS-63)	A Choice Uncirculated specimen nicely struck and with nice luster.
GEM BU-65 (MS-65)	A Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions (marks).
SUPERB GEM BU-67 (MS-67)	If you look real hard with strong magnification you might find a faint flaw.
PERFECT GEM-70 (MS-70)	Once in a great while, a perfect coin is sold.
PROOFS & SPECIMENS	Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-63, GEM Proof-65, SUPERB GEM Proof 67).

GOOD	Well worn but all devices legible.
VERY GOOD	Fairly well circulated but quite legible.
FINE	Some circulation but with decent color and some crispness.
VERY FINE (VF)	A few folds with much of original crispness.
EXTREMELY FINE (EF) or(XF)	Two or three light folds, light soiling or handling marks.
ALMOST UNCIRCULATED (AU)	A single fold or several tiny corner folds.
CRISP UNCIRCULATED (CU)	No fold or corner creases! Corner may be rounded or note not completely centered but no creases (i.e. broken fibers) can be evident.
CHOICE CU	A brighter or fresher note with full borders although one or two may be slightly off-center.
GEM CU	Brightness and well centered, sharp corners.
SUPERB GEM CU	Perfect centering and bright colors. As nice as the day it was printed.

Artificially processed notes will be so described.

REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the only auction company that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

NEARLY COMPLETE TYPE COLLECTION U.S. CURRENCY

The consignor attempted to assemble a complete set of types of the U.S. currency. Rather than be content with the few that might be within his price range in choice condition, he chose to collect notes which were nice appearing but might contain defects. He was remarkably successful in his goal, obtaining many scarce and rare notes. Some have not appeared on the market in quite some time. Who knows how long it may be before they again are offered.

PERSONALIZED INVESTMENT SERVICE

Many auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we have developed the Kagin Numismatic Investment Program — a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first Ph.D. conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

- Inclusion in Keogh Retirement Plans and Individual Retirement Accounts.
- Pension Funds.
- Numismatic Tax Counseling.
- Personal Consultations.
- Personalized programs designed to fit your individual needs.

Yes, I am interested in receiving more information (without obligation) concerning KAGIN'S INVESTMENT PROGRAMS.
